He also appointed by UPM Research Team as a Co-Researcher for Risk Management Program in Palm Oil industry. Personally he had join a lot of training courses related to OSH and reliable in industries within Malaysia and abroad. His passion in training and in-depth knowledge with hands on expertise in OSH makes him an excellent traniner. In addition, Mr Zanuiddin holds an Executive Master in Safety, Health & Environment (2016) from Universiti Selangor.

ABU SUHAIME BIN MOHD ALI

I am Abu Suhaime Mohd Ali have over 31 years of work experience, primarily in the field of construction management, highway & road asset maintenance/asset management, highway quality management, health, safety, environment and traffic safety.

Also 17 years of experience working in Health, Safety and Environmental (HSE) with road safety in construction.

The main tasks I was assigned as Manager of Traffic and Safety Department. I have also been assigned as Chief DI mission on the preparation for the opening of Prolintas two (2) new constructed highway, which is Sungai Besi-Ulu Kelang Elevated Expressway (SUKU) and Damansara-Shah Alam Elevated Expressway (DASH).

I am responsible for the development, planning, strategy and execution of all traffic related to the opening which has been officially formalized at:

- The launching ceremony for phase 1 opening of Sungai Besi-Ulu Kelang Elevated Expressway (SUKU) that was officiated by **Senior Minister of Works YB Dato' Sri Haji Fadillah bin Haji Yusof** on **15 September 2022** at Bukit Teratai Tol Plaza.
- **The Prime Minister, Dato' Sri Ismail Sabri Yaakob (PM)** officiated the opening of Damansara-Shah Alam Elevated Expressway (DASH) in a launching ceremony held at Denai Alam Toll Plaza on **13th October 2022**.
- Sungai Besi-Ulu Kelang Elevated Expressway (SUKU) Phase 2 Opening Ceremony which were that was officiated by **Works Minister YB Dato Sri Alexander Nanta Linggi** on **15 June 2023** at the Alam Damai Toll Plaza of SUKE.

The main role includes establishing the procedure, establishing the Auxiliary Police (AP), deploying manpower for traffic management, assigning manpower for the officiating the event.

Provide leadership to support the management and the operations team Traffic and Safety together with QHSE standards through 'Point of Work Assessments'; audit and review of operating practice and systems by contributing and support the development of road safety projects, contribute to the development of road safety policies and procedures, deliver road safety advice and interventions,

Supports effective relationships with internal and external stakeholders, such as Lembaga Lebuhraya Malaysia and others, and contributes to advance business planning by utilizing practical and procedural knowledge.

Conduct site tours and participate in meetings with internal and external partners. Produces written reports and executive summaries to be made available to senior management, including project proposals, progress reports and assessments.
